The State University has 1,000 pupils in attendance.

A government in Mexico is to be recognized if one can be found.

If you have a job that is in doubt, remember that Oct. 9 is a day to prevent fires.

Twenty-five American physicians and 50 nurses will inspect German prison camps in Russia at the expense of Germany.

Germany has very shrewdly enlarged Bernstoff's powers at a time when we were seriously considering sending him home.

One of the Russian Generals at the front is named Ivanoff. It pronounced Ivenough, he has the best name of any of them.

At Providence, R. I., Bob Burman broke the world's auto record, going a mile in 45.75 seconds, lowering Disbrow's record .47 of a second.

England is still worrying over a question that Germany settled before the war commenced, whether or not to make all of her able-bodied men fight.

By a majority of only 30, a proposal to vote \$130,000 in road bonds was defeated in Lincoln county and only 1,600 votes were cast out of about 4,000 in the county.

At the Democratic campaign opening at Glasgow yesterday, Senator Beckham was assigned to ride in auto No. 9, but the Senator may have objected to being put in a "Nine Hole."

Judge James P. Lewis, the Republican nominee for Secretary of State, is a native of Letcher county. He is a retired banker and lawyer, who was at one time a county judge. He is a Mason and a Baptist and is 45 years old.

A London dispatch says Germans have lost 20 submarines of the 27 they had when the war started and have added 10 new ones, leaving them only 17 now in action. The British have lost 7 submarines since the war began.

The Glasgow parade was headed by "six beautiful ladies astride thoroughbred horses," and Percy Haly was placed back 14 vehicles in the rear where he couldn't see a thing. There is such a thlog as being severe without being cruel.

The men who are running Barnum Bailey's circus this year have evidently lost the wisdom of former days and will show at Madisonville instead of Hopkinsville. The only explanation is that the circus couldn't buck the great Pennyroyal Fair.

A hot senatorial campaign between Lea and Patterson is opening in Tennessee. There are two other candidates but Lea and Patterson are expected to lead in the primary Nov. 20 and have a run-off at a later date, unless the other candidates should give them a clear track.

Somebody around Frankfort has evidently been "looking after" the corporations. The city of Paducah claims that its Cumberland Telephone Franchise tax has been assessed for 1915 at \$9,099, as against \$69,925 for 1914. The auditor's clerk in charge, Charles Veling, reported when an explanation was asked that the assessment was made by "pole miles" instead of by "wire miles."

INVOKE AID OF U. S. FOR B LINE

Commission to Appeal to Congress for Help on Ohio River Bridge and Roads.

WILL VISIT NEXT SESSION

Dixon Line Between Henderson and Madisonville Gains Favor Over Rival Routes.

Henderson, Ky., Sept. 20.—Federal aid for the construction of the Dixie Beeline from Danville, Ill., to Springfield, Tenn., its almost certain southern terminus, will be secured if a personal appeal from the entire route commission and the executive officers of the association can induce the national government to do so.

At Dawson Springs, Ky., the commission in a short meeting decided to visit with its entire membership, the next congress in an effort to interest the government in the construction of this vital line between the lakes and the gulf, as proposed in the Geo. E. Gary resolution.

Federal aid in the construction of a bridge across the river at Evansville will be one of the most important things the commission will endeavor to interest congress in and aid for counties having difficulty in financing an improved road will be sought.

Senator Ollie James, of Kentucky, Frank O'Hair, of Paris, Ill., formerly congressman of that state, and Congressman Lieb, of Indiana, are men upon whom the commission is pinning its faith to lead the proposition in Washington. The commission thinks the influence of these men, each of whom are interested in the country to benefit by the Bee Line, can be depended upon to secure some very satisfactory results in congress. Members of the commission and its officials expect to receive aid from other federal officials, whom they are sure of interesting in the construction of the Bee line as a national highway.

At the meeting it was decided to postpone the meeting for the official selection of the route until Nov. 4, instead of holding it the first week in October. This was done at the request of the southern vice presidents who are facing a coming state election, and the opening of fall court terms, with which many are actively connected.

The route from Madisonville to Nortonville, along the L. & N. tracks, is in opposition to the route through Dawson Springs from Madisonville to Crofton, and the roads between Madisonville and Henderson, are in opposition to Dixon, Providence and Poole, Ky. The Dawson Springs route was knocked out when it was seen going there means merely a side trip of some fifty miles out of the way. The route from Madisonville to Henderson through Sebree could hardly be described as a road if Indiana highways were taken as the standard, and they have been.

From Madisonville to Hanson, a hilly, narrow, clay road, was covered through a rough country. From Hanson to Slaughterville the unsuspecting commissioners were led over a roadbed abandoned several years ago by the L. & N., and while the rocks had been raked up to hide the grass and bridges of unnailed oak boards laid over old supports had been hastily put up the commissioners did not fail to take in the situation fully.

The road from Slaughterville to Sebree is usable for a spring wagon but not for an automobile in its present form, and compared with the clay road from Henderson through Dixon, it is a fourth rater. Thus the commissioners are quietly checking off Sebree and its route. At Earlington a barbecued dinner was served by the ladies of the several churches at that place. Speeches were made by the officials. Mayor Charles Ramsey presided at Sebree, where Mayor Bosse and local men spoke.

The last of the proposed routes, from Sebree to this city alongside the L. & N. tracks, was seen with

ALABAMA STONE BEST

Is The Opinion of The Building Committee of M. E. Church.

ROCKFORD OOLITIC STONE.

To Be Used In Construction of New Main Street Edifice.

The Building Committee of the Methodist church has selected the stone for the new church. Three samples were submitted, Bowling Green, Ky., Redford, Ind., and Rockford, Ala., and the committee made a trip to Nashville and inspected the finished work of all three kinds and upon returning selected the Rockford stone.

It is what is known as oolitic stone, with grains resembling the eggs of fish. It will be the only building in Hopkinsville constructed of this kind of stone. There are many buildings built in whole or in part of the Bowling Green stone and many buildings are trimmed with Bedford stone.

The Baptist church, the most conspicuous stone structure in the city, is built of Hopkinsville limestone, quarried in the city limits from a small quarry no longer worked for building purposes.

FARMER OF FAIRVIEW

Passes Away After Illness of Several Weeks of Brain Trouble.

William L. Hancock, a well known farmer of the Fairview neighborhood, died Friday. He had been ill of brain trouble for several weeks. His widow and two daughters survive. Mr. Hancock was 54 years old. He was a member of the Methodist church. His funeral services were held at his late residence Saturday by Rev. J. T. Watson, of Honey Grove, and the interment took place in the Gray burying ground.

BEST STATE FAIR.

The 1915 Kentucky State Fair failed by 395 to equal the attendance record, though receipts were larger. Kentucky led all other States in the \$8,000 prizes given in 115 classes at the horse shows. With prospects of a new record it was forced to combat bad weather on the closing day, and hopes for a crowd of 8,000 to 10,000 were shattered. The attendance yesterday was 6,006. The total for the six days was 114,031.

roads, which will require much attention before ready for automobile use, were passed over from Sebree to within eight miles of Henderson where a pike was struck.

When the commissioners and their party arrived here they were worn with five days of travel, during which they have covered approximately 200 miles of Kentucky and Tennessee roadway and were covered with the dust of a day's travel.

Only one accident occurred to mar the entire trip and that was this afternoon when a machine driven by W. L. Stone, of Providence, Ky., county clerk of Webster county, crashed into the truck carrying the commissioner's baggage on a hill just out of Earlington.

Arthur Henson, of Providence, was severely bruised in the crash and the car was put out of commission. Max Ritter, of Evansville, the Courier representative, and Dan Miedreich, of Providence, were also in the car but escaped with minor bruises and wrenches.

The party arrived here at 8 o'clock. The Henderson Commercial Club served a dinner for the Bee liners in the Elks' home after which the par-

CASEY MAKES TEN STRIKE

Will Secure Experiment Station's State Fair Exhibit For Fair.

PRIZES FOR BOYS' CLUBS

Fine Prospect For Cattle Show In All The Various Classes.

County Agriculturist A. M. Casey returned from Louisville Sunday morning, where he had been since Thursday night, attending the State Fair.

Mr. Casey made the trip in the interest of the Pennyroyal Fair, to pick up new ideas which would be of benefit to him in arranging the Christian county exhibits in the Agricultural Department. He was well pleased with what he saw, and he saw it all, making notes of those ideas that best suited a display of Christian county products in the space allotted to him.

One result of the trip may be the securing of the Agricultural Exhibit of the Experiment Station for the Pennyroyal. This exhibit was at Lexington and at the State Fair and Mr. Casey feels good over the prospects of getting it here. He says the only thing in the way is the short time in which to make the necessary preparations.

Geoffrey Morgan, M. O. Hughes, Professors Carmody, Hooper and Slade all expect to be here during the fair and told Mr. Casey they were coming.

Thos. Powers, a noted Poland China breeder of Crittenden, Ky., who fell in love with Christian county during the visit of Kentucky farmers and agents, was at the State Fair and to Mr. Casey was loud in his praise of Christian county and its people. At the suggestion that he show his appreciation in a substantial way through the Boys' Pig Club, he readily gave a registered pig to be competed for by the Club and will ship the pig at once.

Among the Christian county winners at the State Fair, Mr. Casey reports the winning of first prize on best 10 ears yellow dent corn for Western Kentucky division of Boys' Corn Club by Felix Keatts, of Pembroke. The prize was \$20.

At a meeting of the Farmer's Club at Van Cleave school house last week, Mr. Casey spoke to the club on the subject of More Live Stock, more Humus, and Conservation of Manure as a means of more Corn, Wheat and Tobacco, which means more Money.

As usual the cattle department of the Pennyroyal Fair will be one of the most attractive features. Director in charge of the cattle barns is R. H. McGaughey, who has been notified that the Hereford herd of Giltner Bros., will be here, to compete with Wallace & Broadbent, of Trigg county.

W. A. Glass will show a herd of Angus, Hammer & Meacham, of Union county, who won on Short-horns last year, will bring their herd from Owensboro the last of this week. R. H. McGaughey will again exhibit his fine Polled Durhams. The Jersey class will also be very strong.

Several nice special prizes have been offered in the Boys' Pig Club. The object of this club is to show the great advantage of feeding corn to hogs as the most profitable way of disposing of the corn crop.

The management of the Pennyroyal Fair makes the announcement of premiums to be awarded to members of the Boys' Pig Club, as follows:

TEUTONS TAKE VILNA

Almost, if Not Entirely, Surround Part of Czar's Army in Region.

BALKANS STILL UNSETTLED

Both Germans and French Claim Minor Victories on the Western Front.

London, Sept. 20.—The Germans have occupied Vilna and, by a wide, sweeping movement north of that city, have almost, if not entirely, surrounded a part of the Russian army fighting in the railway triangle between Vilna, Lida and Vileika.

The Russians in this district now must either fight their way out eastward or retire in a southeasterly direction, for the only railway left entirely in their hands is that running from Vilna to Lida and thence to Buranovitchi.

The battle, seemingly, must be fought out between troops now in the district between Vilna, Lida and Slonim, with the assistance of any reinforcements that can be spared to hold the German force that has reached Vileika.

At the southern end of the line General Ivanoff is still keeping von Mackensen at arms' length from the fortress of Rovno, the key to Kiev, and in counter attacks has retaken villages in Volhynia and Galicia.

Both the Germans and the French claim minor victories on the western front, but neither there, in the Italian theater nor in the Dardanelles, have any events of any great moment been reported.

The political situation in the Balkans is still shrouded with considerable mystery. The Bulgarians after getting what they wanted from Turkey in the cession of a railway line, appear to be well satisfied for the present.

With Bulgaria surrounded by Serbia, Greece and Rumania and her coasts open to attack by Anglo-French, Italian and Russian fleets, however, it is believed here that Bulgaria will hesitate before throwing in her lot with the central powers and Turkey.

Turkey is declared to be having her own troubles over the cession of the Dedesghatch railway. The Mussulman population in this strip of land is said to be in revolt against being placed under the Bulgarian government.

WON EASILY IN RACES

Mr. VanCleave's Fast Pacer First in Race in Marion, Illinois.

Mr. J. J. VanCleave's fast pacer, Black Adward, won easily in straight heats at Marion, Ill., last Friday, his best time being 2:15. The purse was \$400. This horse is making a round of the fairs in Illinois and Indiana and is showing up well. He has entered at other places for this week.

"DRUMMERS" MULE RACE.

One hundred traveling salesman will take part in the festivities incident to the travelling men's day at the Pennyroyal fair Oct. 2. This is the number set by General Chairman Frank H. Mason, who has been keeping in touch with the arrangements for the big day at the fair, and has had expressions from the knights of the grip. One of the star features will be the mule race and not less than 20 drummers are expected to participate in the race. Dick Leavell has agreed to furnish the mules, fine, large unbroken youngsters with all the fire and mettle of war steeds. The names of those who will ride have not been

HOSPITAL ITEMS.

The Jennie Stuart Hospital now has a number of medical cases.

A young man named Aaron Omer, who lives with Mr. J. J. Robertson on the Clarksville pike, was taken to the hospital last week with typhoid fever. He is doing well.

Mrs. F. F. Atwood, of Kentucky avenue, is receiving medical treatment.

Mrs. W. L. Haddock, who has been there some time, is improving gradually.

Mrs. C. A. Cundiff remains about the same.

Miss Estelle Strong, of Anna, Ill., is under a physician's care.

Miss Ela Crute, of Cadiz, who underwent an operation for appendicitis last week, is improving nicely.

Tom Averitt, another surgical patient, is getting along satisfactorily.

Mrs. Beatrice Allison, who has been ill several weeks, is still confined to bed, and her return to her home in N. Carolina is postponed indefinitely. Mrs. Allison has greatly endeared herself to everyone here with whom she has been associated either professionally or otherwise and her illness has been a source of much anxiety to her many friends. She is one of the recent graduates of the Training School for nurses.

MORE SUITS FOR DAMAGES

Three of Them Filed Friday Afternoon With Circuit Court Clerk.

Among the suits filed Friday afternoon with the Circuit Court Clerk were: John R. Green against the Illinois Central Railroad Company for \$3,500 damages, Henry Jenkins, col., against Clifton Parker for \$2,000 damages, and Annabel Phelps, col., against the I. C. railroad for \$1,000 damages.

Mr. Green alleges that in building the railroad across his farm six miles west of the city a bridge was placed across a creek, which caused his land to be overflowed a number of times, ruining his crops and badly washing the soil.

Annabel Phelps states that in coming from Princeton to this city one day she was forced by the defendant's employees to change from the regular colored compartment to a trailer that was being used that day and in making the change while the train was in motion she fell and sustained injuries.

Jenkins states in his petition that one day in March last he was driving his wagon and team in this county and that Parker came toward him riding a motorcycle, when his team became frightened and turned the wagon over, throwing him to the ground and injuring him seriously.

ARRESTED AT DAWSON

Man Accused of Horse Stealing Lodged in Jail Here.

Ernest Haley was arrested at Dawson a few days ago by the town Marshal of Crofton on a charge of horse stealing and the prisoner was lodged in jail here to await the action of the grand jury. Haley is accused of stealing a horse from W. Woosley, of the Bainbridge neighborhood.

WILLING TO BE GENEROUS

Colored Man Was More Than Pleased
to Give Order to "Stranger
in His Midst."

A drummer for a New York gro-
cery house took shelter from a thun-
der shower in a small grocery kept
by a colored man in the suburbs of
Nashville and pretty soon the propi-
etor asked:

"Was yo' a stranger around yere,
sah?"

"I represent this house," replied
the drummer, as he handed out one
of his cards.

"I see. Does yo' own de biness
yo'self?"

"Oh, no."

"Was yo' de senior pawdner?"

"No."

"De junior?"

"No."

"Was yo' backin' de concern wid
yo' capital?"

"No."

"Just sent out to take orders?"

"That's all. Perhaps I can take
an order from you."

"Well, suh, if dat house has dun

Storms Puzzle Astronomers.
The source of "magnetic storms" in
some measure is yet problematic, not-
withstanding long years of observation
by the most devoted astronomers. One
theory is that a positive electricity is
generated from tropical water surfaces
and that the waves are swept north to
the magnetic poles, there to meet neg-
ative streams which produce these
phenomena. It has been demonstrated
that this luminous magnetic matter
can only manifest itself in very rare
atmospheres, and similar phenomena
have really been produced in glass
vessels from which the air has been
practically exhausted.

PERIOD OF THE ETRUSCANS

Flourished in History Long Before the
Romans Rose to Any Degree
of Power.

Researches suggest that the Etru-
scans arrived in Italy from the East,
on a voyage of discovery, about the
year 1187 B. C. They settled in the
region of what is now Florence after
a struggle with the Ligurians and the
Umbrians.

There they founded a confeder-
ation of twelve great cities long be-
fore Rome grew to importance. In
time there were three Etruscan con-
federations of twelve cities each.
Rome, a miserable village before this,
became one of the cities in the last
confederation formed.

Two kings of the Etruscan family
of Tarquin, Servius Tullius and
Numa, ruled over early Rome. The
older inhabitants, however, were
never satisfied with their rule, and
after a long series of ferocious
struggles succeeded in overthrowing
them. The sea power of the Etru-
scans was definitely crushed by the
Romans at Cumæ in 475 A. D.

PUTS OUT THE SWINDLER

Use of X-Rays Will Do Much to Abol-
ish the Schemes of the Fraudu-
lent Painter.

It has now been found possible to
determine by means of X-rays wheth-
er a picture is an original, a restora-
tion or a fraud. Thus the dodges
of swindlers who touch up canvases
to give them the appearance of "old
masters" can be found out. When a
doubtful painting is photographed
with the X-rays every layer of color
is revealed, for just as a bone appears
distinctly in an X-ray photograph,
despite its covering of flesh, so heavy
pigment can be seen beneath a light
surface color.

The painting out of a white drap-
ery and the substitution of a dark
form, the correction of a badly drawn
hand, the addition of a new figure to
enhance the effect of a picture, are
all disclosed by the X-rays and the
swindler's tricks are clearly revealed.

AN APPREHENSION.

"Charley, dear," said young Mrs.
Torkins, "do you think military
critics should be permitted to write
about the war?"

"Certainly. Why not?"

"They're only likely to make mat-
ters worse. Those critics are always
writing something that spoils some-
body's disposition."

by many eminent specialists that
there is no doubt that by the beat of

225 Acre Farm For Sale

Meacham Farm Near Gracey To Be Sold For Division.

The A. W. Meacham farm, one mile northeast of Gracey, will be offered for sale for division at Public Auction at the Court House door in Hopkinsville, Monday, Oct. 4, at 11 a. m. It consists of two tracts of land, lying on both sides of the old Bellevue road. One tract of 112 and on the South side of said road and the other of 68 acres is just across the road, on the North side. A cottage of seven rooms is on the large tract, with large barn, stable and other out-buildings. An additional tract of 45 acres adjoining the farm on the west is for sale if purchaser should want more than 180 acres.

A never failing stream of water, known as Meacham's branch, crosses the farm. A portion of the large tract is in timber. The farm is rented for 1915, but partial possession for seeding crops could be given in the fall. For further information apply to

MISTAKE TO CHANGE BREEDS

Start With the Kind Liked Best and Stick to It—Cull Poor Specimens and Buy Better Ones.

To change breeds every now and then is poor practice. One should be very careful before the particular breed is chosen. To use a Holstein sire one year in order to obtain a large flow of milk, a Guernsey sire another year to secure richness of milk, and a Shorthorn sire the next time, is the wrong principle to employ in the breeding and raising of good cows.

Undoubtedly some good cows will be obtained in the herd from such methods of procedure, but there will be no uniformity of size, form, appearance and production, and the owner has no assurance of what he is going to get in the future. It is a case of too many in the mixture, and it is guesswork as to which one will come to the top.

First, select the breed with great care, then stick to it. If a mistake is made the first time in obtaining poor specimens and poor producers, then rectify the mistake as soon as possible by selecting the right kind of a sire belonging to the same breed to head the herd, or by selling the animals

Typical Dutch Milker.

already bought, and purchasing better individuals belonging to the same breed.

It is usually safer to try to improve within the same breed than it is to improve by changing to a different breed. There are good individuals and good strains within any of the breeds intended for a particular purpose.

INFLUENCE COLOR OF BUTTER

Markets Demand Yellow Tint Which Is Supplied by Use of Dyes or Character of Cow's Feed.

Although it is a fact that some dairy breeds give yellower milk than others, even though it may be no richer in fat, the thing of greatest influence in color is the kind of feed the cows are getting. Market demands call for a yellow butter, which is supplied in the creamery by the use of certain harmless vegetable dyes, the use of which dairy laws rightly permit.

The color also can be fed into the milk and make the use of dyes unnecessary. Carrots, for example, color milk and cream quickly. One of the natural coloring materials in milk and butter is called carotin, from carrots, and this material is found in many food materials. It is plentiful in fresh green grass, hence the milk colors up well in early spring. Alfalfa hay, cured to have a bright green color, contains good supplies of carotin, which appears in the cream as a result.

Hay which has lost this green color, dry corn fodder, silage, straw, yellow corn and white, wheat, wheat bran, cottonseed meal and other milled feeds contain practically none, and cream from cows so fed will produce a light colored butter unless artificial coloring is supplied. The color adds nothing to the value or digestibility of butter, save in one's mind, but the market demands a yellow butter all the year round and the color must either be supplied in the feed or in the creamery.

SEPARATION OF SOUR MILK

Pour From One Pan to Another, Breaking Up Curd as Fine as Possible—Prevents Clogging.

Milk that has curdled will separate with difficulty. Such milk should be thoroughly mixed previous to separating, by pouring from one can into another. In this way the curd is broken up as finely as possible, so that it will not clog the machine. The separation of curdled milk finally clogs the skin-milk tubes, with the result that more skin milk passes through the cream outlet, making a thinner cream.

On the other hand, when sour milk which has not curdled is separated, the cream produced will be thicker. This is due to the fact that cream from sour milk has a high viscosity, or is less fluid, and a smaller proportion of cream is delivered, containing a higher per cent of fat.

Ordinary Cow Stalls.

The ordinary cow stalls should be five feet long from the stanchion back to the gutter. This is the standard distance and does for all except abnormally large or small stock. The width of the stall varies somewhat with the breed and size of the cows, from three feet four inches to four feet. Three feet eight inches is a good average.

AMERICANS FOND OF JEWELS

Have That Reputation All Over the World, and It Would Seem Well Deserved.

Americans have the reputation of being extremely fond of jewelry. This is because they are known the world over as being great buyers of pearls, diamonds and other precious gems.

But we have a close rival in this fondness for costly finery in the Hindus. The men and women both are extravagantly fond of jewelry. The very poorest often wear gold rings set with pearls. They wear rings in their noses and ears and upon their fingers and toes. The arms and ankles are often decorated with bracelets of gold, silver, copper or glass. They are very modest about speaking of their finery.

This is because they lay claim to great politeness of manner. It is a breach of etiquette to use the left hand in bowing, eating and drinking.

SIMPLE AIR PRESSURE TEST

Experiment Which Anyone Can Make Will Be Both Interesting and Instructive.

Anyone can demonstrate the pressure of the atmosphere by the simple experiment which follows:

On the flat of an iron lay a thin sheet of rubber—part of an old tobacco pouch will do. Place a small, thin lid containing some wadding soaked in spirits of wine on the rubber and ignite the spirits. Then press a wineglass down tightly over the flame.

When the flame dies out it will be found that the two articles are firmly united, and may be suspended by a wire, and some time will elapse before they separate. The explanation is that the flame consumes the oxygen in the glass and lowers the pressure, when the greater pressure of the atmosphere squeezes the articles together.

A Pine Whooping Cough Remedy.

Mother, Dr. Bel's Pine-Tar-Honey is just the remedy for your children's cold ailments. The fact is that pine is a quick enemy of cold conditions. Its qualities loosen the mucus in the throat, soothe the lungs and open up the air passages. The combination of honey, soothing and pleasant, with the loosening pine quality makes this an ideal cough remedy for children. Each passing year brings for it, new friends. A family of growing children cannot afford to be without it. 25c. a bottle.—Advertisement.

SPECIAL TO WOMEN

The most economical, cleansing and germicidal of all antiseptics is

Paxtine

A soluble Antiseptic Powder to be dissolved in water as needed.

As a medicinal antiseptic for douches in treating catarrh, inflammation or ulceration of nose, throat, and that caused by feminine ill it has no equal. For ten years the Lydia E. SUPERVISION OF ROAD WORK

Suggestion Made by American Highway Association and National Civil Service Reform League.

A concerted movement for skilled supervision of roadwork throughout the United States has been launched by the American Highway Association and the National Civil Service Reform League. These two great organizations co-operated in the holding of a session at the recent American road congress devoted to a consideration of the merit system in road management. The United States civil service commission was represented by Chief Examiner George R. Wales, who pointed out the manifest advantages

Steam Tractor as Road Maker in India.

of competitive qualification tests as a requisite for appointment to office.

To combat the rather general impression that competitive examinations in all cases mean the answering of stereotyped technical questions, Mr. Wales said:

"For these high-grade positions where men of experience and attainments are needed an examination is given which does not require the competitors to assemble at any place or to answer technical questions. They are called upon to furnish, under oath, a detailed statement of their education and experience, including all the work they have done since graduation. They also may be asked to submit an original thesis or report on published works, and they are required to give the names of persons able and competent to testify as to their experience and personal fitness.

"Confidential inquiry is made by the commission from various sources as well as of all persons referred to by the applicant. Gratifyingly accurate and discriminating testimony is obtained by this means of confidential communication. Such testimony approximates, if not equals, the testimony adduced upon cross-examination in judicial proceedings. A demonstration of the ability of the competitive system to obtain high-class men for technical positions has been made within the past year, in connection with the employment of men to appraise the value of the property of common carriers in the United States.

"For this work the interstate commerce commission required men with qualifications ranging all the way from rodman and chainman to senior positions in civil, mechanical, structural, electrical and architectural engineering, as well as motive power men and expert accountants.

"There have been approximately 15,000 applicants for these positions, and the task of sifting the wheat from the chaff and of grading the wheat after the sifting was one of considerable magnitude; but it was done, and it was done so well that the interstate commerce commission expressed its gratification to find that it could secure a force so well equipped to perform the gigantic task of obtaining an accurate appraisal of the value of common carrier property. A system which can successfully secure a competent force of high-grade engineers for this valuation work could surely provide the proper kind of men to have charge of the construction and maintenance of public highways."

It is expected that steps will be taken to wage an active campaign in every state for the elimination of the spoils system and to substitute for it the merit system.

Keep Out the Weeds.

It is just as important to keep the weeds from seeding along the public highway as it is on your own premises. Ripe weed seeds along the highway scatter into the adjoining fields. Cut the weeds and keep them out.

Rest of Some Benefit.

When the day's work is done drop it there until tomorrow. Have the pleasantest kind of a chat with the wife and children; that is the kind of rest that sweetens toil and takes the snarl out of the threads of life.

Growing Russian Sunflowers.

The mammoth Russian sunflower is grown for its seeds. While it is blooming at the back of a lot it is a sight worth seeing. The seeds are used for chicken feed and a variety of purposes.

BROKE UP MEETING

Unknown Persons Smash Window Lights and Stone House of Preacher.

Dawson, Ky., Sept. 17.—A meeting of the Holy Rollers that has been conducted here by Rev. Jordan, came to an abrupt end last night, when unknown persons stoned the house and broke out all of the window lights. There has been considerable feeling here against Jordan for some time, and it is claimed that he was taken out only a short time ago and given a good whipping by possum hunters. Jordan refused to leave here, and the recent meetings have been going on at his house.

VISITING NURSE

Is Assured By Action of The Council.

At the mid-month Council meeting Friday night an appropriation of \$405 payable monthly \$35 a month, was made to assure a visiting nurse in Hopkinsville. The rest of the fund of \$1,000 is to be provided by subscriptions by churches, lodges and individuals.

Miss Emma Hunt, the nurse sent out by the State Tuberculosis Commission, has been here two months working up the matter and demonstrating the methods of looking after the sick from a sanitary standpoint.

An ordinance providing for posting the names of streets and numbering unnumbered houses was given its second passage. This work must be done to get postal extension.

The Associated Charities was given permission to erect and operate a woodshed on the lot west of the city building.

Shot Them Both.

At Providence, Ky., Sunday, Easter Morton shot and killed Harvey McDowell, aged 30, and perhaps mortally wounded his wife, age 25, when he caught them coming out of a disreputable house near the town Sunday. He had warned them that he would kill them if he caught them together again. Mrs. Morton, in spite of the warning, took her husband's car and met her lover.

Cattle Stronger.

There has been a sharp reaction in the Chicago cattle market. Such heavy bullocks as were a drag on the market a few months back, at \$7.75 @ 8 per cwt., are now abnormally scarce and in demand at \$10 @ 10.25. Steers weighing 1,500 pounds, or more, still in the visible supply may be easily counted and an \$11 market for that kind will cause no surprise.

REMEMBER Pe-ru-na

When You Call At Our Drug Store

Mr. Robert H. Norris, No. 1333 H. St., North Berkeley, Cal., writes: "We have never had any other medicine but Peru-na in our home since we have been married. I suffered with kidney and bladder trouble, but 12 months treatment with Peru-na made me a well and strong man. My wife felt weak and was easily tired and was also troubled with various pains but since she took Peru-na she is well and strong."

HOBBY OF RUSH WATKINS

Was Jefferson Davis Highway Sought to Be Revived at a Meeting Friday.

Several hundred enthusiastic good roads boosters attended the joint meeting of McCracken and Marshall counties good roads enthusiasts held at Benton, the capital of Marshall, Friday afternoon, for the purpose of making plans for a campaign to revive the Jefferson Davis highway and set a general road working day for that section of this highway that lies between Paducah and Benton.

The Jefferson Davis highway is about 75 miles if in a straight line and lies between Hopkinsville and Agnew's Ferry, Wickliffe to Agnew's Ferry, Benton to Wickliffe, Wickliffe to Bowling Green, Paducah to Benton, and Paducah to Smithland, Marion and Cadiz. It traverses a fertile and populous territory.—Paducah News Democrat.

PRIZES BABIES

At The State Fair Won \$65 Each.

With blue ribbons pinned to each shoulder of their little white frocks, and a fat bank account snugly tucked away in the pockets of the fond papas and mammas, the two grand prize winners of the babies' health contest at the State Fair were borne in triumph from the big pavilion, where the prizes were awarded Friday afternoon.

Helen LaVerne Sweeney, of Jeffersontown, and William Mackin, of 1218 South Sixth street, are the names of the children who win the prizes for the highest score made by boy and girl babies, the little girl scoring 94.4 and the boy 93.5.

Each of these tots gets the \$15 prize also for scoring the highest in their class.

Helen LaVerne Sweeney is the daughter of Mr. and Mrs. W. C. Sweeney, of Jeffersontown, where Mr. Sweeney has been engaged in the livery business. The prize-winning baby is a true daughter of Jefferson county, as her parents and grandparents are all Jefferson county folk.

Mrs. Sweeney was Miss Hulda Wigginton, and she is the daughter of Mr. and Mrs. Lud Wigginton, of Mt. Washington. Mr. Sweeney's parents live in Mt. Washington.

Helen LaVerne is fourteen months old. She is the first child of Mr. and Mrs. Sweeney.

William Mackin, two and a half years old, is the son of Mr. and Mrs. William J. Mackin, 1218 South Sixth street. He has a brother, Glynn, twelve years old, and a sister, Orene, ten years old. His happy disposition is said to be his most charming characteristic, and his entire willingness to "talk and be friends" with everybody makes him popular with his family and neighbors.—Post.

BOYS AT FAIR LEARN

"PIG SQUEAK."

Members of the Farm Boys' Encampment are "having the time of their lives" at the fair this week.

B. Gordon Nelson superintendent of the encampment, has taught the boys a "pig squeak," which is akin to a college yell. The boys got together on the grounds and up street and give their "rah, rah, rah."

Following is the yell:

Rah, Rah, Ree!
Who are we?
Farmer boys, farmer boys,
Ken-tuck-ee!

Ruff, tuff, we

Are the stuff—

We can farm and

Never get enuff!

Mr. Nelson staged a pig-calling contest yesterday. He lined the boys up and offered a handful of nickels to the youth who gave the best demonstration of calling pigs. Albert Smythe, of Whitley county, was an easy winner.—Herald.

DIED IN NASHVILLE

Popular Young Man of Lafayette Suffers Attack of Septicemia.

James H. White, a native of this county, died in a Nashville hospital Friday. The remains were interred at Lafayette Saturday. Mr. White was 25 years old. He had been connected with the Christian-Todd Telephone Co. for some time and was manager of the company at Elkton when taken ill. Death was due to meningitis, following an attack of septicemia.

Funeral services were held at the residence of Mr. Minor Rogers, with whom he made his home for some time after the death of his parents.

NOTICE.

There will be an ice cream supper at "Wainut Grove School," four miles out from town, on the Julien road, Thursday night, Sept 23rd. Prof. L. E. Foster will be present and show his stereopticon views. Public is cordially invited. Proceeds will go to the School Library. **RICHIE WILLIAMS,** Teacher.

SPEAKING WEDNESDAY NIGHT.

Roy Wilholt, Republican, is billed for a speech here at 7:30 p. m., Sept. 22, in the interest of the Republican state ticket. He will speak at Pembroke at 1 p. m. the same date.

Real Estate Deal.

W. A. Radford's farm of 300 acres, south of town, has been sold to R. F. Rives, whose lands it adjoins. The sale was made by T. J. McRaynolds. The price was not made public.

JEFF MORRIS BADLY CUT.

A Lexington dispatch to the Courier Journal yesterday said:

J. D. Morris, who conducts a shoe shop at 225 East Main street, accidentally drove a knife into his thigh when ripping a sole from a shoe Saturday afternoon, and fainting, came near bleeding to death before he was found. That night symptoms of tetanus appeared, and anti-toxin was administered. Morris was much better Sunday and it is believed that the danger is past.

HIS FAME GOES ABROAD.

Col. W. R. Howell has been invited to speak at Washington, Ind., at the opening of the Democratic campaign. Vice President Marshall will be one of the speakers. There will be a big barbecue served by an expert from Guthrie, Ky.

DEATH STOPS SUFFERING

A Well Known North Christian County Farmer Victim of Cancer.

Thomas H. Tweddell, of near Crofton, is dead, after a lingering illness of cancer. The deceased was about 65 years old and leaves a widow and several grown children. He was a prominent citizen of his section and leaves a host of friends. Mr. Tweddell was a member of the Cumberland Presbyterian church. The interment took place in the Foster burying ground, near Crofton.

First Christian Church.

Two exceptionally large audiences attended the services Sunday. Interest is increasing both in the Sunday School rally Oct. 10, and in the revival service that begins on that day. Large preparations are being made for these events. Next Sunday afternoon a religious census of the city will be taken. One hundred canvassers will do this work in a little while. There were three hundred and seventy-two in school Sunday. There were eighty-nine in the Men's class. The men are planning a great demonstration on rally day. Among other features for rally day autos and auto trucks will be stationed at the city limits on every street to carry people to the church.

The state convention meets this week at Madisonville. A number of people from this church will attend. The Pastor, Mr. Jessup, went to Madisonville yesterday.

Simpson-Lail.

Mr. T. A. Simpson, aged 50, and Miss Alma Lail, aged 19, were issued license to wed Saturday. They live near Kelly.

TRACING BACK OLD PHRASES

How Some of Those Familiar in Politics Had Their Origin Is Explained Here.

How some of the familiar phrases which we hear just before election time originated is interesting. "Another county heard from" originated during the Hayes-Tilden combat as a result of the slow returns from contested southern states.

Henry Clay made a clever point by calling a protective tariff the "American system."

"Drys" as applied to Prohibitionists was first used in Georgia, and "wets" came at the same time.

"Offensive partisan" as a political phrase originally appeared in a confidential letter written by Postmaster General Vilas during Cleveland's first term as president.

"Salt river" is now a dead one, but it has not been long since "going up Salt river" was a prophecy held up by all parties as the coming fate of opponents. The expression originated in Kentucky, where a stream of that name was regarded as most difficult of navigation.

TOOK HIM FOR EXPERIMENT

Miss De Style Had Her Own Reasons for Considering Offer of Mr. Poorchap.

Miss De Style—You must give me time.

Mr. Poorchap—Certainly. I have nothing but my heart to offer, and I do not expect you to decide at once.

"Then give me two or three weeks."

"Very well."

"And in the meantime I wish you to show yourself dreadfully in love with me, and I'll let the folks see that I am quite interested in you."

"H'm! What's the idea?"

"I want to see how Mr. Richfel-low takes it."

CASE OF NECESSITY.

Little Tommy had a very pretty sister. Pretty sister had a very devoted admirer. One evening when the devoted admirer was sitting in the parlor waiting for sister to appear he was approached by little Tommy.

"Say, Mr. Smith," rather pointedly queried the youngster, "do you love sister Jenny?"

"Why, Tommy!" was the amazed response of the blushing Mr. Smith. "Why do you ask me a question like that?"

"Because," was the quick rejoinder of the youngster, "she said last night that she would give five dollars to know, and I need the money." —Philadelphia Telegraph.

IN ALL TIMES.

"In the registration now proceeding in Great Britain the women are reluctant to tell how old they are, and it may be a puzzle how to deal with them."

"Ah, the women's reluctance to acknowledge their years is the problem of the ages."

JUST COMMON FOLKS.

"They seem to be very ordinary people."

"In what way?"

"They don't claim to have seen in New York every show that comes along."

AN EXPLANATION.

Little Lemuel—Say, paw, why is it wrong to call a man a liar?

Paw—Because, son, if he isn't it will hurt his feelings and if he is the chances are he will hurt yours.

OUR SAWED-OFF SERMON.

The average man seems to think it's up to him to purchase a larger hat every time he has ten cents' worth of fame thrust upon him. —Indianapolis Star.

THE WAY OF IT.

She—I suppose the English soldiers were delighted to get into the fighting in France.

He—Well, they did come over in transports.

NOT VERIFIED.

"Do you believe that it was Noah who ate the apple instead of Eve?"

"Of course not. Noah's taste went all to pairs."

A PROPHECY.

"I am looking forward to another uprising soon."

"Whereabouts?"

"In the thermometer."

GOATS GAIN IN FAVOR

Within Last Few Years Industry Has Assumed Prominence.

Animals are Useful for Several Purposes—Skins Used for Leather—Fine Hair of the Angora Is Known as Mohair.

Angora goats were introduced into this country from Turkey about 1850, and have been bred ever since in different parts of the country in small numbers. It is only within the last few years, however, that the goat industry has assumed especial prominence. According to recent census statistics on this subject, there are 1,815,000 goats in the United States. About 500,000 of these are Angoras, the remainder being common goats.

Goats are useful for several purposes. Their skins are used in the manufacture of leather, or for rugs; the fine hair of the Angora is known as mohair, and is used in the manufacture of the various dress goods and plushes. The demand for mohair in manufacture in the United States is much in excess of the supply which can be obtained from goats in this country, and a good market for this product may be expected for a long time to come.

The meat of goats, especially Angoras, is eaten to a large extent, being commonly sold under the name of mutton, and more recently bearing the name of Angora venison, or Angora mutton. If the goats are well dressed it has perhaps a more delicious flavor than mutton, and seldom has as much fat. In certain localities

Champion Angora Buck.

the meat is at present sold under the name of Angora mutton, for prices slightly higher than those paid for cheap mutton. The meat of the Angora is preferable to that of the common goat. A venison-like flavor is given to goat meat when the animals browse upon various wild shrubs. This gamey flavor, however, is not so noticeable when the animals are fed upon cultivated plants. Very little use is made of the milk of goats in this country, but analyses show it to be of high nutritive value, and it can be used in the manufacture of cheese. The presence of Angoras or other goats in hands of sheep is said to be a source of protection to the sheep, since goats will defend themselves and the entire herd against attacks of dogs or coyotes.

POISONS OF JOHNSON GRASS

All Fodder Plants Related to Sorghum Must Be Used With Discretion as Feed for Stock.

(By G. H. GLOVER, Colorado Experiment Station.)

Johnson grass is closely related to sorghum. Poisoning of cattle from sorghum and kafir corn is well known. After chemical analysis of many plants Brunnich gave the following advice: "All fodder plants related to sorghum must be used with discretion in either the green or dry state and should not be given in large amounts to animals which have fasted for some time." The poison in these plants is hydrocyanic acid. Poisoning usually occurs when the plants have made a stunted growth from drought and are eaten in large quantities, when the animals are very hungry.

Animals poisoned in this way usually die within half an hour and sometimes live only a few minutes. Hydrocyanic acid is the most deadly of poisons and in large doses kills almost instantly. Animals usually die suddenly from paralysis of respiration and before medical measures can be thought of or prepared for use.

LOOSE COLLARS ON HORSES

Cause of More Sore Shoulders Than Tight Ones—Wash Sore Spots With Water at Night.

Loose collars make more sore shoulders than tight ones. Use rather long hames, and squeeze the collar snug against the sides of the neck. Lift the collar up once in a while and let the breeze cool the shoulders off, just as you lift your hat to let the wind blow on your brow. Unharness at noon, and wash the shoulders with cold water at night. Get along without a sweat pad. Don't let the mane get under collar, and see that it isn't wedged under the pad at the top of the collar.

Bull is an index. The kind of a bull a man keeps is a pretty fair index to the kind of a dairyman its owner is.

SLOW TO FORGET HATRED

Women, It Is Said, Will Remember a Wrong Much Longer Than Will a Man.

Reports from Berlin refer to the "vindictive hatred" of the German women for their country's foes. From the soldiers home from the front come words of respect, even of praise, for their adversaries in arms, but the women nurse their enmity; theirs is "haughty Juno's unrelenting hate," and they freely express it.

The fact only proves that German women are "sisters under the skin" with the women of other nations. Is feminine hatred of the enemy more intense in Unter den Linden than in the Champs Elysees or in London's West End? We doubt it. Woman's capacity for hate is equalled only by her capacity for love. Her deeper depths of affection are matched by depths of enmity, where her emotions are profoundly stirred, unknown to man. Men, individually and in the aggregate, fight and forgive. But with the women the offense rankles long after the physical wounds are healed.

Hatred is not a new feminine attribute, nor is it local to any country. The women of Berlin are no better haters than were the women of the South in the Civil war or the women of Rome and Athens centuries before. Hatred has been a sex prerogative since the beginning of history, and its possession is what makes women in the broader sense the best patriots. There is a theory that women would put an end to war if they had the determining voice. That is a hypothesis of doubtful soundness.

Few women are pacific at heart, and though the development of political consciousness has made them more keenly appreciative of the terrible price they pay for war, the proposition is a long way from proof that they would abolish it if they could.

Faces come on people, waters and notes that are always coming due at the most inconvenient time. When faces belong to people they vary in size and shape and do not appear to be constructed according to any matured plan. They also come in various colors, red, blue and white. Some faces belonging to certain young ladies between seventeen and twenty-five are highly ornamental and are calculated to inspire one's respect for the careful workmanship of the Creator. It is difficult, under some circumstances, and when there are no others present, to get too close to such faces as these. Faces are used by their owners for various purposes, for example, to conceal lack of brains. Every face has one nose, two eyes, two lips, a forehead, eyebrows and cheeks. Also chin, which is used to make music. The nose comes in various colors, according to the taste of the owner; ranging from an alabaster white to a deep purple.—Life.

Duruy's History of the World

Four splendid cloth volumes, full of portraits, sketches, maps, diagrams

Today is the climax of a hundred years of preparation. Read in this timely, authoritative, complete, AND THE ONLY CONDENSED classic world history—of which over 2,000,000 copies have been sold in France alone—just what has taken place in the inner councils of Europe during the past one hundred years. Read in these entrancing pages how Russia has for years craftily been trying to escape from her darkness—to get a year-round open port, with its economic freedom. Read how Germany and Austria, fearful of the monster's latent strength, have been trying to checkmate her and how they have pinned all in this last, supreme stake.

The Lesson of the Past

THIS master of the pen shows you the glory that was Greece's and the grandeur that was Rome's. He guides you through the Middle Ages, the picturesque old days of feudalism and the crusades through the Renaissance up to contemporary history, which Paul Groeneweg completes to brilliant manner. In the story of the past lie the secrets of today. And you will understand them better when you get the Review of Reviews for a year—the Review of Reviews will give you a sane interpretation of the events that are taking place with such rapidity. It is not enough to read the daily news reports. Your ability to comprehend conditions, and to discuss them rationally depends on a true interpretation of the meaning and the "reason why" of events. In your mind you must bring order out of chaos—and the Review of Reviews will do it for you.

STEWED APPLES AND CREAM

Walter Followed Instructions to Letter and Maker of Bad Joke Had to Settle the Bill.

The joker who makes a bad joke deserves it turned on him, as it very often is.

A man who dined at a restaurant was asked in the ordinary way by the waiter what he would have for the next course.

"You may bring me stewed apples and some cream."

"Yes, sir."

"Only let me have them without the cream."

"Yes, sir; most certainly, sir."

"And without the apples, please."

The waiter disappeared and soon returned with a plate on which lay a spoon and a little powdered sugar.

The customer looked surprised.

"It's your stewed apples and cream, sir, without the stewed apples, and without the cream," said the waiter. The item figured on the bill just the same, and the customer had to pay it.

DODGING TROUBLE.

Miss Higmitt, the Stenog—Did you fire me just 'cause I misspell a few words now an' then an' sometimes get halled up in my notes?

Mr. Littleton—By no means. You see, I have an unreasonably jealous wife, and she won't allow me to keep a pretty young stenographer in my office.

Feminine Consistency.

"What's the matter, Hawkins?"

"Matter enough! You know some time ago I assigned all my property to my wife—to keep it out of the hands of people I owe, you know."

"Yes."

"Well, she's taken the money and gone off—says she won't live with me because I've swindled my creditors."

No Gardener.

"What are you fooling with there?" "Asparagus. First, you trench it, next you get it started, then you transplant it. In a couple of years you will have a fine crop. Better plant some." "Not for mine. I don't see why anybody should go to all that trouble when you can buy it for 13 cents a can."

Juvenile Imagination.

"Don't you know that you ought to be careful not to leave finger marks on your hooks," said the teacher who was trying to encourage neatness.

"Yes," replied the small boy. "Bill Jenkins told me about that. Some day the habit is liable to put the detectives on your trail."

Needed a Silencer.

"What will you have next?" asked the waiter.

"Why, I gave you the whole order," replied the lady.

"Yes, but the gentleman with you was taking his soup, and I couldn't hear you."

Doubtful.

"Arthur seems a bright, capable fellow. I think he'll get on."

"Well, he's certainly a worthy young man, but I doubt whether he has head enough to fill his father's shoes."

Unfeeling.

Judge—This is the tenth time you have come before me, Kelly.

Prisoner—I'm sorry, judge; but the cops don't seem to care how much work they make you.—Puck.

The statement of a manufacturer is not convincing proof of merit.

But the endorsement of friends is. Now supposing you had a bad back.

A lame, weak, or aching one.

Would you experiment on it?

You will read of many so-called cures.

Endorsed by strangers from far away places.

It's different when the endorsement comes from home.

Easy to prove local testimony.

Read this Hopkingsville case:

Mrs. J. E. O'Daniel, 603 O'Neal St., Hopkingsville, says: "I suffered from pains in my back and sides and other troubles caused by weak kidneys. Doan's Kidney Pills quickly cured me. I know that they are the best kidney medicine to be had. I often advise friends and acquaintances to give Doan's Kidney Pills a trial."

TOO MUCH RAIN

Kelly Vicinity Visited By a Cloudburst.

A miniature cloudburst visited the neighborhood between Hopkinsville and Kelly Friday afternoon, flooding a small area and doing a good deal of damage.

Geo. Courtney had 250 sticks of newly cut tobacco, waiting to be hung on the sticks, washed into a creek and others had tobacco and corn fields overflowed.

Many culverts were washed out and fences swept away. The rain did not reach the city.

Further west in the Sinking Fork neighborhood the rainfall was also very heavy. In fact a large section of the country north of town was in the track of the storm and Little River was raised from the low stage which it has been for some time until the banks were nearly full.

A mare belonging to S. R. Boyd was struck by lightning and killed. A barn belonging to W. S. Witty

was damaged to the extent of \$150.

On Saturday afternoon a hard rain fell in the city preceded by a wind-storm and much thunder, but no serious damage was done so far as known. The rain was succeeded by other rains, giving the ground a thorough soaking.

IN PEMBROKE VICINITY.

Lightning struck a stock barn on the farm of R. J. Garrett, of the Pembroke neighborhood, Saturday evening and burned it to the ground. Two young mules in the barn were burned to death. A horse belonging to a negro tenant was gotten out just before the roof fell in.

In the same vicinity a cabin on the farm of C. S. Bradshaw was damaged by the wind, but no one was hurt.

To Break Will.

Mrs. Mary Clay Grimes, daughter of the late Junius B. Clay and granddaughter of the late Cassius M. Clay, has filed suit in the Bourbon circuit court asking to have the will of her grandfather set aside. Out of an estate of \$750,000 she was cut off with \$1, several years ago.

MONSTER BIPLANE FLIES

Carries Ton of Bombs and Two Rapid Fire Guns.

Duluth, Minn., Sept. 20.—Details of the giant aircraft "Canada," said to be first of a fleet of air destroyers being constructed at Toronto for the British army, were received here.

The Canada is a biplane. Its control is automatic and it can carry ten bombs weighing 200 pounds each, says the letter. Every part of the machine was designed in the United States, it is stated. The craft is equipped with the rapid fire guns so placed that they can fire toward the front, the back or upward. The craft has two 160 horsepower motors.

The letter says the Canada has been given a trial trip and has been accepted by the government.

SINGING SCHOOL

Closes at Brick Church--- Taught By Prof. Taylor.

Prof. F. B. Taylor closed his singing school at the Brick church last week, making fifteen schools he has taught in this county. Other schools were at Crofton, Palestine, Consolation, Castleberry, Lantrip's, Concord, Mt. Carmel, Macedonia, New Bethlehem, Casky and Gracey. He has also taught at Cerulean, Buffalo, and Arlington, in Trigg county. He will teach another school at Brick church in November.

Mr. Taylor has also led the song services in revival meetings at Buffalo, Dawson and Morton's Gap recently. He obtained his musical education in Baylor University at Waco, Tex., and has been very successful as a teacher.

Facts That Speak.

Mr. Morrow indicts the Democratic party for many short comings as he sees them through specs dark-

ened by prejudice if not misrepresentation of facts. His inconsistency and lack of reliability are natural, for he is a Republican. But while he ignores these facts what Mr. Morrow says neither denies nor takes from the record the fact that the present state administration has added a month to the school year, a dollar to the school per capita and that the state aid and supervision law, under which 104 counties are now simultaneously engaged in a co-operative and comprehensive system of road building, was the act of a Democratic general assembly and received the signature of a Democratic governor. On these two achievements alone, the Democratic party can safely rest its assertion of right again to be intrusted with the administration of the state's affairs. That these things are to the party's credit and will retain it the votes of the people goes without the saying, Mr. Morrow's harping to the contrary.

During the first half of last year more than \$22,000,000 worth of diamonds were produced in South Africa.

DIED SUNDAY.

Wife of Councilman Hiram Smith Victim of Paralysis.

Mrs. Mary Smith, wife of Hiram S. Smith, colored member of the City Council, died at her home, 631 Hayes street, Sunday morning, after a lingering illness. She was stricken with paralysis in 1910, and since then had remained in poor health. During the last five weeks she had been confined to her bed.

The deceased was born in Hopkinsville fifty-two years ago and was married to Councilman Smith in 1882. She was a sister to Charles Ruffin, the well known tobacco worker, and leaves two children, Sally and Sherman Smith.

The funeral will occur this afternoon from Freeman Chapel, Colored Methodist church, of which she had been for many years and up until the time of her illness an active member.
